

VESTITECH PARTNER PROGRAMS

Dear Potential Partner,

Thank you for considering partnering with VestiTech. We have a strong vision to become a leading vendor solution in the track and trace services market. We believe that partnering with us can help you gain new opportunities and grow your business.

We are excited to introduce our innovative sensor and service platform for various applications. Our platform provides a comprehensive solution for businesses and organizations seeking to optimize their operations and gain valuable insights from data.

Our sensor technology captures data, which is then analyzed by our service platform, OnTrack. This enables your clients to make informed decisions, increase efficiency and reduce costs. Our platform is customizable and can be tailored to meet the specific needs of each business or organization.

As a partner, you will have access to our product offerings and receive support to help you succeed in selling the solutions.

Benefits of partnering with us:

- Access to innovative sensor solution
- Wide range of service applications
- Earnings on both one time hardware deals as recurring SaaS revenues
- Opportunity to expand your product offerings and increase your revenue
- Competitive pricing for both hardware and software services
- Onboarding training in selling our product

Our platform can be used in various applications, including:

- Smart livestock solutions
- Track and Trace solutions
- Construction solution
- And many more options to create additional service offerings

Join us in our journey to enhance the industry with our advanced sensor and service platform. Contact us today to learn more about our partner program and how we can work together to bring our solution to businesses and organizations worldwide.
